

## **BACKGROUND SCREENING**

### **Fingerprinting - Baseline**

Every coach/club director/official/volunteer/chaperone who has unsupervised control over the Junior Volleyball Players must be fingerprinted. Fingerprinting is a one time screening unless the individual has moved out of the region and upon return must be fingerprinted again before working with CEVA Junior level teams.

### **SSCI Screening – Every Other Year**

Every coach/club director/official/volunteer/chaperone applying for membership with the CEVA is required to go through a secondary screening process. The information and required forms needed for this screening will be automatically generated for each member when they renew or create a new membership online. For those who are in their “non-screening” season, the forms will NOT be generated and no additional cost incurred. This screening is IN ADDITION to the Baseline Fingerprint Screening.

### **FEES:**

**Fingerprint Screening - \$70** - (This does not include the cost of obtaining the fingerprinting from a police agency or private company. CEVA will perform this service at no additional cost.)

**SSCI Screening - \$16** - This is in addition to the Fingerprint Check and is a requirement of ESIX Insurance in order to maintain the coverage.
